

2020 CES: Mobileye's Computer Vision (Replay)

Jan 7, 2020

Watch Prof. Amnon Shashua's CES 2020 address highlighting the progress and purpose of Mobileye's drive to full autonomy.

This news content was originally published on the Intel Corporation Newsroom.

Watch Prof. Amnon Shashua's CES 2020 address highlighting the progress and purpose of Mobileye's drive to full autonomy. He showcased new sensing technologies that culminate into a 23-minute drive on the congested streets of Jerusalem that is the basis for Mobileye's MaaS service. Shashua showcased the uninterrupted drive as an example of transparency he feels the industry should provide to get to full autonomy. | [Amnon Shashua's Speaker Notes](#).
