

## Join Us Online at CES 2022

January 2, 2022

For all its ups and downs, [2021 was a big year for Mobileye](#). Now 2022 is upon us, and we're starting it out in full force at CES.

We've had to switch to an exclusively virtual presence for this year's big tech expo. But that won't stop us from bringing you all the latest from Mobileye and all that we're doing to proliferate our self-driving technology everywhere, in every way, for everyone. Here's where you can tune in for our live sessions.

### **"On the Road to the Future"**

#### **Intel Press Conference with Gregory Bryant and Prof. Amnon Shashua**

Tuesday, January 4, 2022, 10 a.m. PST | Watch live at [intel.com/ces](https://intel.com/ces)

Join [Intel senior leaders](#) as they share new developments in two of Intel's most important businesses: personal computing and automated driving. Gregory Bryant, executive vice president and general manager of Intel's Client Computing Group, and Prof. Amnon Shashua, Mobileye CEO, will share the stage with several guest executives whose companies, working with Intel, are leading digital transformation and computing growth across two of today's fastest-growing sectors.

### **"Under the Hood" with Prof. Amnon Shashua**

Wednesday, January 5, 2022, 11:30 a.m. PST | Watch live at [mobileye.com/ces-2022](https://mobileye.com/ces-2022)

Join [Mobileye CEO Prof. Amnon Shashua](#) as he explains how the company will deliver economically viable consumer autonomous vehicles (AV) to the world. He will unveil new chip technology, share progress on radar and lidar technology, and, for the first time, disclose details about Mobileye's approach to enabling fully autonomous solutions across vehicle types and use cases around the globe. The 2022 "Under the Hood" session is not to be missed, as Shashua shows how Mobileye is rewriting the AV game.

### **But that's not all...**

During CES, we'll be demonstrating a broad spectrum of Mobileye technologies and how they're being implemented across the industry. Check in at [mobileye.com/ces-2022](https://mobileye.com/ces-2022) to encounter a variety of [vehicles that are Driven by Mobileye™](#) for in-depth looks at our cutting-edge tech, to hear from more members of our senior leadership, and more.
